BioRoot Flow

2g Syringe

Permanent root canal filling in combination with gutta-percha points in case of inflamed or necrotic pulp or following a retreatment procedure.

NEW

- Easy – Ready-to-use syringe provides easy extrusion directly into canals and you maintain your preferred obturation technique
- Successful – Highly-pure calcium silicate mineral formulation (resin-free) means no shrinkage, limited bacterial growth, and increased biocompatibility and bioactivity which reduce the risk of adverse reactions.
- With 91% clinical success after 2 years, BioRoot™ Flow exceeds success rates found in the literature (1,2).
- For Everyone – Designed for cold and warm techniques with excellent flow into accessory canals, tight adhesion to dentine and gutta-percha, and reproducible results in all root canal treatments from simple to complex

Contains: 2g syringe, 1 finger grip, 20 intra-oral tips

Rebilda DC Fluorescent

- Dual-curing, composite-based Rebilda DC fluorescent core build-up and post luting system
- The material fluoresces and becomes visible under UV-A light. This means that excess material and build-up margins are clearly recognisable, especially at deep subgingival levels
- The material is dentin-shaded under daylight and is therefore ideal for highly aesthetic restorations.

- VOCO-1406 Rebilda DC - QuickMix syringe 10g fluorescent dentine
 VOCO-1399 Rebilda DC - cartridge 50g fluorescent dentine

Buy 5 get 1 FREE*

Introducing the New Aoralscan Elite

SHINING 3D
DENTAL

IntraOral Scanner More than an IOS

The Aoralscan Elite is the world's first device to integrate both intraoral scanning and photogrammetry into a single unit.

This dual functionality makes it versatile for both traditional dental work and advanced implant procedures. This groundbreaking innovation allows for comprehensive dental imaging and precise implant positioning, setting a new standard in dental technology.

Slim and Light

Aoralscan Elite Intraoral scanner combines a compact size and lightweight structure.

- Ultra-lightweight (124g)
- Compact dimensions (245 x 30 x 26mm)

edge digital dentistry

I had a CEREC Primescan system installed in my practice in April by Vanja and the DMI team. I love it and my patients love it. It allows me to have an extremely efficient workflow with precision accuracy for all my CEREC restorations which are fitted in the same day. It's a game changer for any practice. DMI have been excellent to deal with and I have no hesitation in recommending them.

Paul O'Donnell, O'Donnell Dental, Churchtown, Dublin
