Keeping the WAVEONE[®] simplicity, with a golden host of benefits

wave • one[®]
GOLD

1 Reinforces patient safety

- Primary WAVEONE[®] GOLD file is 50% more resistant to cyclic fatigue than WAVEONE[®] Primary file
- Reduced screwing effect compared to standard rotary systems

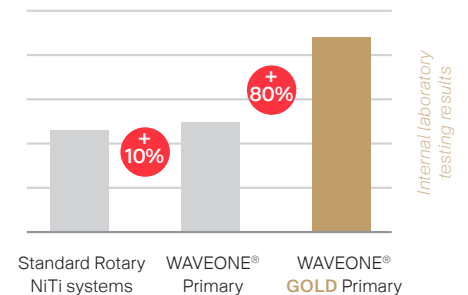

Cyclic fatigue resistance

2 Covers a wider range of canal morphologies

- Enhanced file flexibility thanks to the GOLD technology
- Extended size range (Small, Primary, Medium, Large)

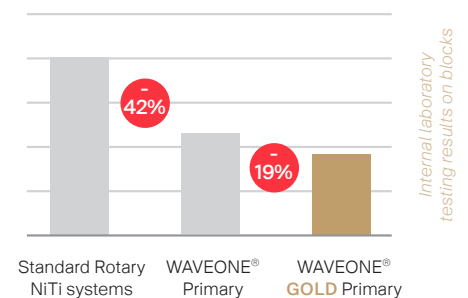

Flexibility

3 Shortens the shaping time

- Takes the cutting efficiency to a higher level
- A single file per treatment also translates into time savings for canal shaping and irrigation

Shaping working time

Engineered with the latest reciprocating technology

DENTSPLY MAILLEFER has teamed up with the best endodontic professionals to develop wave•one[®]
GOLD

The design team speaks

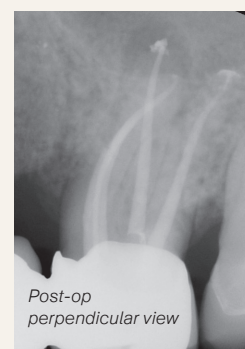

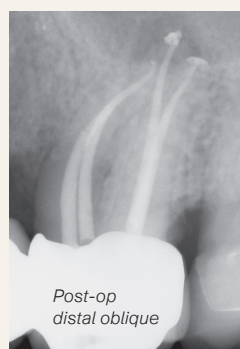

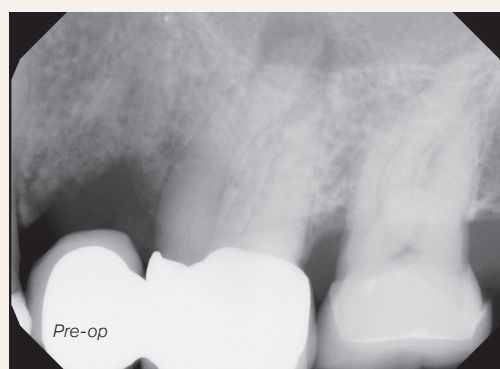

D^r C. Ruddle, D^r J. Webber, D^r W. Pertot, D^r S. Kuttler

Shaping canals has never been easier.

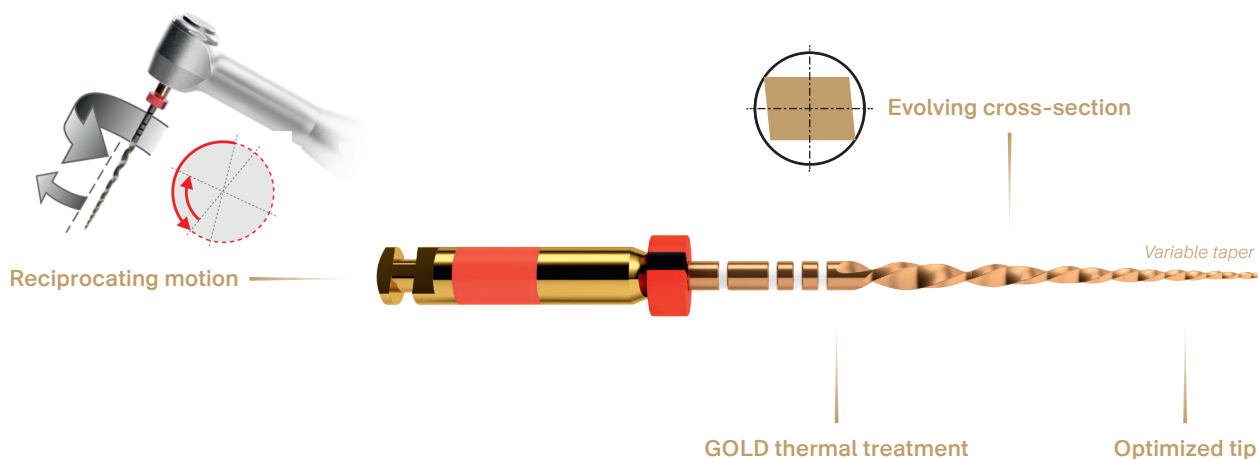

Since its launch in 2011, Dentsply Maillefer's WAVEONE[®] has set a new standard in root canal shaping. All around the world general dentists and endodontists have voiced their appreciation of the simplicity WAVEONE[®] brings to their efforts to provide quality endodontic treatment to their patients.

We have been working on a new and exciting WAVEONE[®] project to bring you WAVEONE[®] GOLD.

WAVEONE[®] GOLD brings to the endodontic procedure a metallurgically advanced single-file technique for shaping canals. Further, we optimized the tip diameters, tapers, and the cross-section to produce a file that really improves safety, efficiency and flexibility when preparing canals. WAVEONE[®] GOLD takes simplicity and treatment success to another level.

Simplicity that enables treatment focus

The majority of root canals can be shaped with a single **wave•one[®] GOLD** Primary file

Ready-to-use + Single use

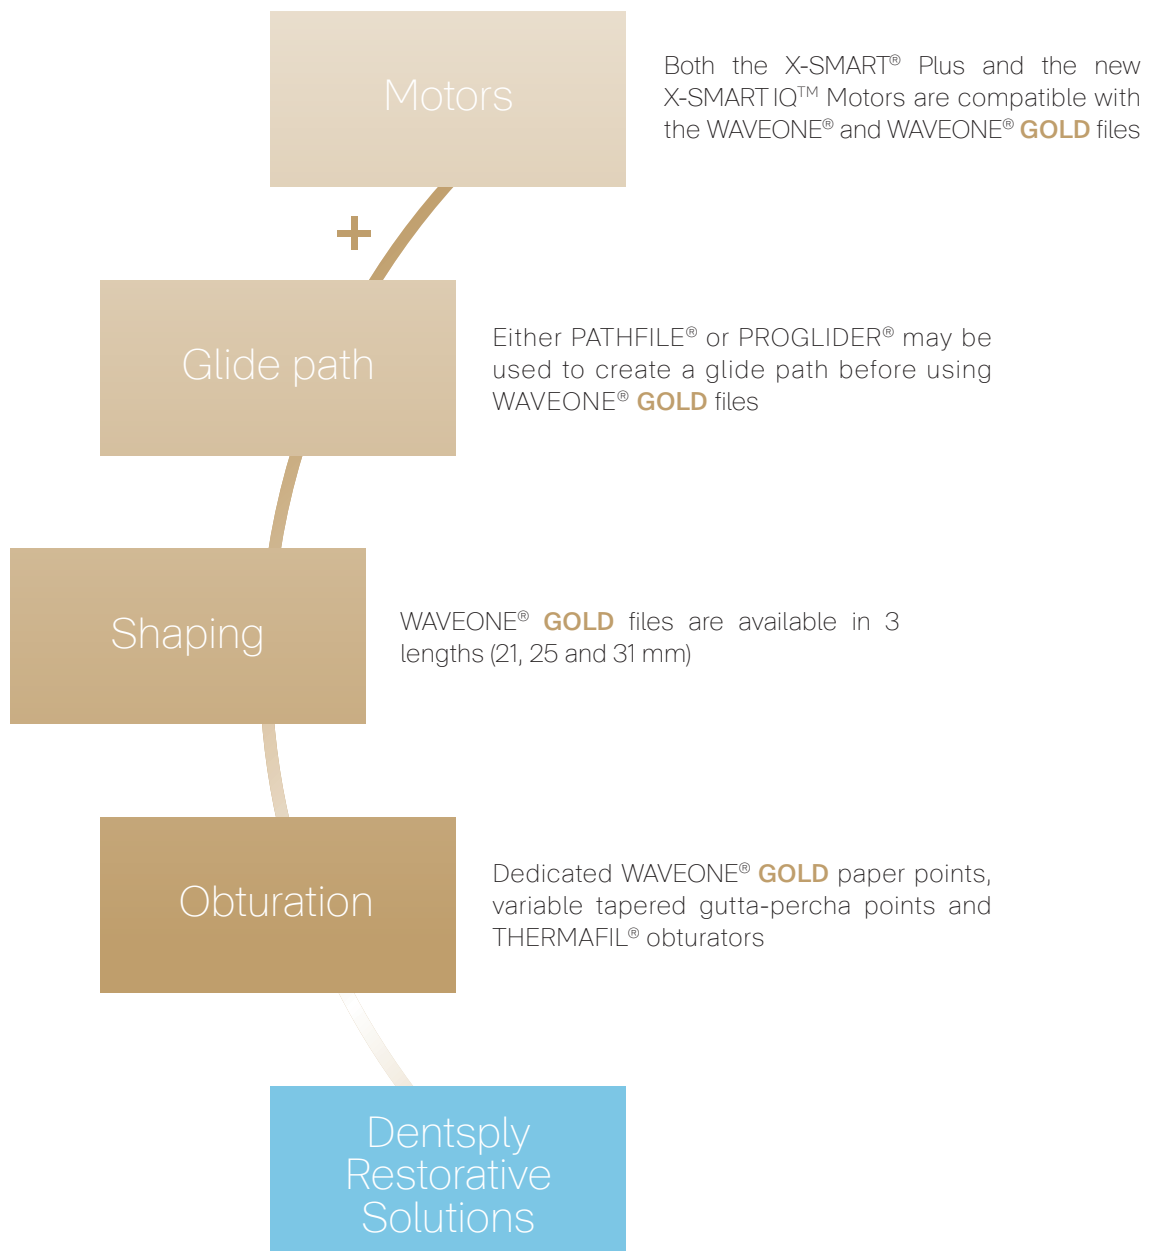

Most dental practitioners have the twofold aim of reducing overall treatment costs while improving safety and efficiency. With this in mind, WAVEONE[®] **GOLD** files are supplied in sterilized blister packs. Dentists will benefit from:

- Simplicity, thanks to the ready-to-use sterile packaging
- Increased safety margin, by always using files with maximum fatigue resistance potential
- Reduced risk of cross-contamination, which can occur when instruments are reused
- Maximized cutting efficiency

One complete solution

With wave•one[®]_{GOLD}, Dentsply Maillefer promotes comprehensive treatment solution and optimizes predictably successful outcomes

Kits

- A10541 X-SMART IQ™ Starter Kit:**
- 1 Motor with contra-angle
 - 1 Pack of 15 Primary WAVEONE GOLD
 - 1 Pack of 16 Assorted WAVEONE GOLD
 - 1 Blister of 3 PROGLIDER
 - 1 iPad Protective Case

- A10358 X-SMART® Plus Starter Kit:**
- 1 Motor with contra-angle
 - 1 Pack of 15 Primary WAVEONE GOLD
 - 1 Pack of 16 Assorted WAVEONE GOLD
 - 1 Blister of 3 PROGLIDER

Motors

- X-SMART IQ™ Motor - A1054
- X-SMART® Plus Motor - A1032
